DEAR HY-VEE READER,

As a Hy-Vee chef, one of my favorite parts of the job is developing dishes for wine tastings, which we host regularly at the store. The Wine and Spirits Department manager, Josh Rodabaugh, selects the wines and I work with the store’s registered dietitian, Teequa Knapp, to come up with healthy food partners for the vino.

Because I have spent time as a chef in fine steak houses, I enjoy serving sumptuous cuts of beef at some wine events. Once we served the most amazing braised beef with carrots, celery and bacon-infused Yukon gold potatoes. Accompanied by a dry red sauvignon, it was kind of like pot roast, but the way an A-list restaurant would do it. One lady liked it so much she bought enough for a party of 30. Nights like that are why my job means so much to me. Just what I wanted—good food and wonderful new friends. It’s a gift.

You’ll find that this issue of Hy-Vee Seasons is filled with tasty new ideas for food and drink. Discover fresh, nutritious blue-water cuisine in “Summer Seafood Menu,” page 16, and a delicious spread of festive-for-the-Fourth recipes in “American Made,” page 38. Entertaining adults? Offer them one of our refreshing summer drinks, such as the Yellow Cab or Cachaça Cooler, from recipes in “On the Rocks,” page 24. There’s also advice for putting more fruits and vegetables into your diet.

Summer is cranking up and the Fourth of July will be here soon. This edition of Hy-Vee Seasons is bursting with foods to eat and useful information you can use. Seize the day!

What are some quick tips or tricks from your department that can help customers make the most out of summer?

A: Here at the café, we are a full service restaurant and bar. If you’re having one of those days, you’ll feel better if you come in for salmon or steak. Coming in to dine isn’t your only choice. For times when you’re too busy to cook, you can place an order online for something from our menu. To make it even easier for you, we offer curbside pickup of food to go.

A: This summer is all about grapefruit—it’s our number one focus. You can even get grapefruit-flavored beer. For mixed drinks, we suggest grapefruit-infused vodka with club soda or orange juice. If you are having company and don’t have something prepared, a quick way to chill a bottled drink is to plop it into a bucket of ice cold water.

Lynn Schieffer

A: WE ENCOURAGE CUSTOMERS TO THINK OUTSIDE THE BOX WHEN IT COMES TO GOURMET BURGERS. INSTEAD OF JUST CHEESE, TRY TOPPING YOUR BURGER WITH DI LUSSO HAM. IT’S DELICIOUS!

Beth Stuck

A: Summer usually means wedding season, and lots of brides come in looking for dahlias, ranunculus and peonies. We can start with fresh flowers and build something from scratch or we can re-create any ideas brides fall in love with online. For fresh, everyday flowers make sure to recut stems every couple of days and change out the water to keep them fresh!

AVOCADOS

Lusciously thick guacamole begins with avocados. Tacos and enchiladas wouldn’t be complete without them. This healthy fruit (yes, it is a fruit) is a smooth, buttery Mexican staple that’s found in abundance in Hy-Vee produce sections. Discover trendy new ways to enjoy avocados in your everyday cooking.

SHOP SMART

Look for dark-skinned Hass avocados in your Hy-Vee Produce Department. Choose heavy, undamaged fruit with no soft spots. For mashing, pick avocados that give under gentle pressure; for chopping or slicing, select ones that are a little firmer.

LET IT RIPEN

Ripen avocados in a closed paper bag on the countertop for up to five days or until the bottom of the avocado gives slightly. To speed up ripening, add an apple or banana to the bag for the release of ethylene gas. Once avocados are ripe, store them in the refrigerator for up to two days.

REMOVE THE PIT

Using a chef’s knife, cut avocado in half lengthwise. Twist the halves in opposite directions to separate them. Gently tap the pit with the sharp edge of a knife with enough force so the knife edge wedges into the pit, but not so hard you cut all the way through it. Using the edge of the knife, twist the pit out of the avocado and discard.

MASH, DICE OR SLICE

To mash avocado, scoop out the flesh with a spoon and mash it with a fork. To dice, place avocado half, cut-side up, on a work surface. Make three or four evenly spaced lengthwise cuts through its flesh down to the skin, without cutting through the skin. Make four crosswise cuts in the same fashion. Scoop out the diced avocado flesh with a spoon. To make avocado slices, use a knife to slice the inside of the avocado halves into sections. Use your fingers to separate the avocado segments from the skin.
DID YOU KNOW

ONE MEDIUM AVOCADO SLICED, DICED OR CHOPPED MAKES ABOUT 1¼ CUPS. ONCE AN AVOCADO IS CUT AND EXPOSED TO AIR, ITS FLESH OXIDIZES QUICKLY. COVER ANY EXPOSED SIDES TIGHTLY WITH PLASTIC WRAP. ADDING A DASH OF LEMON OR LIME JUICE WILL SLOW OXIDATION.

AVOCADO MELON SALSA
Sweet, juicy watermelon adds a refreshing twist to this lightly seasoned salsa. Enjoy it on chips or over grilled fish or chicken. If you prefer more heat, add some of the pepper seeds.

Prep: 15 minutes | Chill: 2 hours | Serves 24 (2 tablespoons each)
3 ripe avocados, seeded, peeled and chopped
1 cup chopped watermelon
½ cup chopped yellow onion
1 jalapeño, seeded and chopped*
3 tablespoons fresh lime juice
2 tablespoon chopped fresh mint
½ teaspoon Hy-Vee kosher sea salt
¼ teaspoon Hy-Vee black pepper
⅛ teaspoon cayenne pepper

1. In a medium bowl, toss together avocados, watermelon, onion, jalapeño, lime juice, mint, salt, black pepper and cayenne pepper. Cover and chill for 2 hours until serving time.

ROASTED GARLIC GUACAMOLE
Using one firm and two extra-soft ripe avocados gives this traditional guacamole its smooth and chunky feel. To minimize the risk of discoloration, cover the avocado mixture tightly with plastic wrap.

Prep: 20 minutes | Serves 10 (2 tablespoons each)
2 cloves garlic
2 very ripe avocados
3 tablespoons sliced green onions
3 tablespoons chopped cilantro
1 tablespoon fresh lime juice
¾ teaspoon kosher salt
1 firm ripe avocado

1. In a small dry skillet, over medium heat, roast unpeeled garlic for 10 to 15 minutes or until softened and blackened in spots. Cool garlic, then slip off skins and place in a food processor.
2. Halve and seed very ripe avocados; scoop out pulp and add to food processor. Add green onions, cilantro, lime juice and salt. Cover and process until almost smooth. Transfer to a bowl.
3. Halve and seed firm ripe avocado. Place one avocado half cut-side up on a work surface. Make four evenly spaced lengthwise cuts through its flesh down to the skin without cutting through the skin. Make four crosswise cuts in the same way. Scoop out the diced avocado flesh with a spoon and add to pureed avocado mixture. Repeat with remaining avocado half.
4. Serve immediately or cover with plastic wrap and smooth it against the surface of the guacamole. Refrigerate until serving time.

Summer Stems

Bring personality to the table with a casual bouquet of vibrant summer flowers. Pick your favorite blooms—packaged by flower variety—from the Hy-Vee Floral Department’s lineup of fresh market bouquets. Arrange stems in a pitcher or large jar for an outdoor centerpiece.

**WHAT YOU NEED**

- CERAMIC PITCHER
- 7 YELLOW STOCK
- 3 PURPLE STOCK
- 5 SNAPDRAGONS
- 6–7 WHITE SPIDER MUMS
- 3 YELLOW SPIDER MUMS
- 5 DELPHINIUMS

**STEP 1:** Wash, rinse and dry pitcher. Fill with cool water.

**STEP 2:** Hold flowers next to pitcher to determine height. Remove leaves that will be below the waterline. Cut bottoms of stems on a diagonal while holding them underwater to avoid trapping air in stems. Place stems in pitcher, arranging as needed.

IN FINE Spirits

STOP BY THE HY-VEE WINE & SPIRITS DEPARTMENT IF YOU ARE SEARCHING FOR A NEW TASTE IN WINE. MANAGERS LIKE BRIAN WAHLSTROM AND DREW WILSON WILL INTRODUCE YOU TO THE CABERNET OR MOSCATO OF YOUR DREAMS.
A little knowledge goes a long way when choosing wine or other adult beverages. Get expert advice at your local Hy-Vee Wine & Spirits Department. Managers, such as Brian Wahlstrom and Drew Wilson, will boost your confidence as a host and share a fact or two about the flavors and history of a drink.

**WINE**

Of all his store innovations, Brian is most proud of introducing monthly wine tastings. “People can be kind of uncertain about wine. Usually, they are overthinking it. Just drink it and enjoy it,” he says.

When it comes to what wines people are drinking, Drew and Brian agree. Cabernet is a steady number one, but Moscato has charged into second place. Bubbly and light, it’s very pleasing to drink. Drew says French rosé is the next one to watch.

“People see that it’s a pale pink, and they assume it will be sweet and taste like white Zinfandel. But it’s not like that at all,” Drew says. “When I’m grilling with friends, we’re all drinking French rosé. It goes with a ton of foods and tastes great.”

Another strong category is red blends, which were rare five years ago.

**SPIRITS**

Bourbon whiskey is an American product and is leading the field in alcohol sales. “Bourbon is the big deal right now,” Brian says. “It doesn’t matter whether it comes straight or with something mixed in, like apple.”

Both managers have been somewhat surprised by the continued strong sales of Dr. McGillicuddy’s Fireball Cinnamon Whisky. Drew says, “That one just blew up and got huge a couple of years ago. I thought it would be popular for a short time and then die back. But it just keeps growing. Customers love the flavor and the heat.”

The other big seller that hasn’t stalled yet is flavored vodka. These vodkas include everything from citrus to peanut butter to whipped cream. “Lemon and cherry have big followings. They’re good year-round,” Drew says.

**BEER**

Craft beers are made in small batches, often by small regional breweries. Hy-Vee stocks many brands. Beer’s popularity hit a few years ago and continues because beer drinkers like variety. India Pale Ale (IPA) is a hot-selling beer style that has been rising in sales.

“IPA is a sign of the maturing of American beer palates. Cider beers are selling well too. These specialty beers are part of the picture, for sure, but we are, of course, still selling lots of Busch and Coors. The big names are selling only a little less,” Brian says.

STEAKHOUSE BURGERS

The secret to making an unforgettable burger is the beef you use. Grind up flavorful, affordable beef chuck steaks with butter or bacon for juicy patties that have an ultimate richness hot off the grill.

Prep: 15 minutes | Freeze: 1 hour | Grill: 14 to 18 minutes | Serves 4

1 pound beef chuck flat iron steak

¼ cup Hy-Vee butter or 2 slices Hy-Vee double-smoked bacon, chopped

¾ teaspoon Hy-Vee kosher sea salt

¼ teaspoon Hy-Vee black pepper

1. Cut steak into ½-inch pieces; spread pieces on a large baking pan. Add butter or bacon to pan. Cover and freeze for 1 hour or until partially frozen.
2. Heat a charcoal or gas grill for direct cooking over medium heat.
3. Place partially frozen meat mixture in a food processor. Cover and process until meat is coarsely ground. Or, using the meat grinder attachment of your mixer, grind the meat according to manufacturer’s directions. Stir seasonings into meat mixture and shape into four ¾-inch-thick patties.
4. Grill for 14 to 18 minutes or until done (160°F), turning once halfway through. Serve as desired.

TASTY ADDITIONS TO BURGER MEAT

Whether you make Steakhouse Burgers or All-American Burgers, recipe on page 44, add any of these six simple flourishes to turn up the flavor volume of the ground meat mixture:

• A tablespoon of fresh herbs brightens the flavor. Try basil, oregano or cilantro.
• A tablespoon of steak sauce intensifies the burger’s beefiness.
• A few dashes of Worcestershire sauce or stout beer builds depth and tang.
• A few tablespoons of a dry red wine bring peppery notes.
• A tablespoon of finely chopped fresh chiles puts heat in the meat.
• A couple of tablespoons of grated Parmesan, Romano or Asiago cheese add a salty flavor note.
**COOKING 101**

**STEP 1:** Cut steak into ½-inch pieces; spread pieces out on a large baking pan. Add butter to pan. Cover and freeze for 1 hour or until partially frozen.

**STEP 2:** Heat a charcoal or gas grill for direct cooking over medium heat.

**STEP 3:** Place partially frozen meat and butter in a food processor.

**STEP 4:** Cover and process the meat and butter until it is coarsely ground.

**STEP 5:** Shape ground meat mixture into four ¾-inch-thick patties. Make a small indentation in the center of each patty, which ensures the burger will cook evenly as it swells during grilling.

**STEP 6:** Grill for 14 to 18 minutes or until done (160°F), turning once halfway through.

**HOMEMADE SIGNATURE CONDIMENTS**

Nothing distinguishes a burger like a homemade condiment. If you like subtle heat and sweetness, Sriracha hot sauce plus mayo could easily become your fave. Other flavor enhancers include bottled barbecue sauce, Russian salad dressing or Hy-Vee Select chutneys, including onion, jalapeño and savory tomato.

**KICKY KETCHUP:**
In a blender, combine 2 cups Hy-Vee ketchup; 1 serrano chile pepper, seeded and cut up;* 1 teaspoon Sriracha sauce; ½ teaspoon liquid smoke and 1 clove garlic, minced.

*Note: Chile peppers contain volatile oils that can burn your skin and eyes. When working with serranos, wear protective gloves.

**TANGY BEER MUSTARD:**
In a small bowl, combine ½ cup Hy-Vee stone-ground mustard, 2 tablespoons stout beer, 1 tablespoon Hy-Vee honey and ½ teaspoon Hy-Vee Worcestershire sauce.

**CREAMY GARLIC AIOLI:**
In a small bowl, combine ½ cup Hy-Vee mayonnaise and 3 cloves garlic, minced; season to taste with Hy-Vee salt and Hy-Vee pepper.

**ZESTY RELISH:**
In a small bowl, combine ¼ cup chopped Hy-Vee dill pickles, 2 tablespoons finely chopped green bell pepper and 2 tablespoons finely chopped red onion.

QUALITY SEAFOOD

When examining seafood packaging at Hy-Vee, look for the Responsible Choice blue tag, shown above. This label is your assurance that seafood was caught in a manner that doesn’t harm the environment.

Responsible Choice standards were developed as part of the Seafood Watch program at California’s Monterey Bay Aquarium. The effectiveness of these standards is widely recognized.

“IT is Hy-Vee’s mission to do business in a manner that promotes the well-being of our customers, employees, communities and the global environment,” says Nate Stewart, Hy-Vee vice president of perishables.

The environmental group Greenpeace has praised the company’s commitment to healthy seafood by ranking Hy-Vee as the nation’s fifth best supermarket.

As another step to ensure fish and shellfish safety, Hy-Vee employs a full-time U.S. Department of Commerce seafood inspector at the company’s central seafood warehouse. Though this inspection is not required by law, Hy-Vee put a USDC agent in place to guarantee the quality of the seafood you serve.
HALIBUT EN PAPILLOTE

Delicate white halibut steams quickly, yet gently, in a parchment-paper packet called a papillote (pah-pee-YOHT). The addition of a healthy wheat grain called farro adds a pleasant chewiness while fresh veggies and a fragrant lemon-dill butter make everything incredibly moist and flavorful.

Prep: 40 minutes | Bake: 25 minutes | Serves 4

- ½ cup dry Hy-Vee Select farro, rinsed
- 1 cup Hy-Vee chicken broth
- 6 tablespoons Hy-Vee butter, softened
- 1 teaspoon lemon zest
- 2 teaspoons fresh lemon juice
- 1 teaspoon chopped fresh dill
- ½ teaspoon Hy-Vee kosher sea salt, divided
- ¼ teaspoon Hy-Vee ground black pepper, divided
- 1 cup sliced summer squash
- 1 cup sliced zucchini
- ½ cup julienne-cut carrot
- 2 tablespoons chopped shallot
- 4 (6-ounce each) skinless Alaskan halibut fillets
- Dill springs, for garnish
- Lemon zest, for garnish
- Lemon wedges, for serving

1. In a small saucepan, combine farro and chicken broth. Bring to boiling; reduce heat. Simmer, covered, for 25 minutes. Drain and set aside. For lemon-dill butter, in a medium bowl, combine butter, lemon zest and juice, chopped dill, ¼ teaspoon salt and ¼ teaspoon pepper; set aside.

2. Preheat oven to 400°F. Cut four 12×14-inch sheets of parchment paper. Fold each piece in half crosswise, making a crease down the center. Draw a half of a heart shape on each paper, with the heart center at the crease. Cut out hearts and open the parchment; set aside.

3. In a bowl, toss together squash, zucchini and carrot. Divide cooked farro among parchment hearts, arranging the farro in a thin layer on one side of each heart and leaving a 1-inch border around the edges. Layer vegetable mixture over farro. Sprinkle shallot over top. Top with fish and a rounded tablespoon of lemon-dill butter. Season with remaining ¼ teaspoon salt and ¼ teaspoon pepper.

4. Fold parchment over mixture. Starting at the round portion of the heart, fold paper, tightly sealing edges with narrow folds. Twist the tip portion of the heart to seal.

5. Place packets on an ungreased baking sheet. Bake for 25 minutes or until done. To check for doneness, insert a toothpick through the parchment; it should slide through fish easily. (Do not open packets to check if food is done.)

6. Carefully transfer packets to individual plates and serve immediately. Use caution because steam will release once the packets are opened. If desired, garnish with dill sprigs and lemon zest. Serve with lemon wedges.

SHRIMP SCAMPI PIZZA

Savor the flavors of a classic Italian pasta dish on a pizza. Shrimp, garlic and lemon juice are layered on top a creamy Alfredo sauce.

Prep: 40 minutes | Bake: 15 to 20 minutes | Serves 6

2 (6.5-ounce each) packages Hy-Vee dry pizza crust mix
1 cup hot water
2 tablespoons Hy-Vee Select olive oil
½ cup chopped onion
6 cloves garlic, minced, divided
½ cup Hy-Vee creamy Alfredo sauce
½ cup Hy-Vee grated Parmesan cheese
½ cup chopped Italian parsley
½ teaspoon Hy-Vee kosher sea salt
½ teaspoon crushed red pepper flakes
1 pound medium shrimp, peeled and deveined
2 tablespoons fresh lemon juice
2 ounces Asiago cheese, shredded (about ½ cup)
¼ cup Hy-Vee shredded mozzarella cheese
Additional chopped Italian parsley, for garnish

1. Preheat oven to 450°F. Grease a large baking sheet; set aside. Prepare pizza crust mix according to package directions using 1 cup water; cover and let rest.
2. While dough is resting, in a large skillet, heat oil over medium-high heat. Cook onion and 4 cloves minced garlic until softened. Using a slotted spoon, transfer onion and garlic to a bowl; reserve oil. Stir Alfredo sauce, Parmesan cheese, parsley, salt and red pepper flakes into onion mixture; set aside.
3. In the same skillet, heat reserved oil over medium-high heat. Add shrimp and remaining minced garlic. Cook just until shrimp turn opaque. Drizzle lemon juice over top. Remove from heat.
4. Shape pizza crust dough into a 12-inch circle on prepared baking sheet. Spread Alfredo sauce mixture over crust. Top with shrimp and garlic mixture. Sprinkle with Asiago and mozzarella cheese. Bake for 15 to 20 minutes or until crust is crispy and cheese is lightly brown. Garnish with additional chopped parsley.

Nutrition facts per serving: 440 calories, 16 g fat, 6 g saturated fat, 0.5 g trans fat, 120 mg cholesterol, 1,380 mg sodium, 49 g carbohydrates, 2 g fiber, 4 g sugar, 24 g protein. Daily values: 15% vitamin A, 20% vitamin C, 25% calcium, 15% iron.
GRILLED SCALLOP AND FRUIT KABOBS

Grab the skewers, fire up the grill and enjoy big sea scallops any day of the week. Scallops grill best as they are. You only need a finishing glaze to give them a sweet undertone with a slight kick.

Prep: 30 minutes | Grill: 4 to 6 minutes | Serves 4

2 navel oranges
1/4 of a whole fresh pineapple
1/4 cup Hy-Vee honey
1/2 teaspoon grated fresh ginger
Several dashes cayenne pepper
8 metal or wood skewers
4 green onions, cut into 1-inch slices
1 pound sea scallops
Hy-Vee kosher sea salt, to taste
Hy-Vee black pepper, to taste

1. Prepare a charcoal or gas grill with lightly greased grill grates for direct grilling over medium-high heat.
2. Cut one orange horizontally into thick slices; quarter slices and set aside. Zest remaining orange for 1/2 teaspoon grated zest; set aside. Squeeze zested orange for 1/4 cup juice; set aside.
3. Cut pineapple into small chunks. Squeeze some of the chunks for 1/4 cup juice. For citrus glaze, in a small saucepan, combine orange juice and pineapple juice, honey and ginger. Bring to boiling; reduce heat. Gently boil for 5 to 10 minutes or until reduced to 1/4 cup. Stir in orange zest and cayenne pepper.
4. On each of eight skewers, thread an orange slice, green onion slices, scallop, pineapple chunk, another scallop and green onion. Season to taste with salt and pepper. Grill kabobs for 4 to 6 minutes or until scallops are opaque throughout, brushing and basting with citrus glaze halfway through grilling. Serve with remaining citrus glaze.

GRILLED TUNA STEAKS WITH PEACH SALSA

Brushing tuna with a seasoned oil mixture keeps it moist and flavorful while grilling. Tuna lovers generally prefer steaks with a pink middle. You may cook it longer, but cooking out all traces of pink might make fish less flavorful.

Prep: 30 minutes | Grill: 3 to 4 minutes | Serves 4
4 (8-ounce each) yellowfin tuna steaks, about ¾ inch thick
¾ teaspoon lime zest

2 tablespoons fresh lime juice
2 tablespoons snipped fresh cilantro
2 tablespoons finely chopped green onion
1 tablespoon Hy-Vee Select olive oil
½ teaspoon Hy-Vee kosher sea salt
¼ teaspoon cayenne pepper
¾ pound fresh peaches, chopped (about 2 cups)
2 Roma tomatoes, seeded and chopped (about 1 cup)*
½ cup chopped orange bell pepper
¼ cup chopped red onion
1 jalapeño pepper, seeded and finely chopped**

1. Rinse fish; pat dry with paper towels. Set aside.
2. In a small bowl, combine lime zest, lime juice, cilantro, green onion, olive oil, salt and cayenne pepper; set aside.
3. In a medium bowl, combine peaches, tomatoes, bell pepper, red onion and jalapeño; stir in half of cilantro mixture. Cover and chill until serving time.
4. Prepare a charcoal or gas grill with greased grill grates for direct grilling over medium-high heat. Grill tuna for 3 to 4 minutes or until fish reaches desired doneness, turning once and brushing with remaining cilantro mixture halfway through grilling. Serve tuna immediately with salsa.

*Note: Oval-shaped Roma tomatoes are good for this salsa because they have more flesh with less juice and fewer seeds than other varieties.
**Note: Chile peppers contain volatile oils that can burn your skin and eyes. When working with chiles, wear protective gloves.

GRILL-WORTHY CHEESES!

MELTED TO OOZY GOODNESS ON CROSTINI OR SEARED IN A SLAB, CHEESE LENDS A RICH, FLAVORFUL BITE TO AN ARRAY OF GRILLED APPETIZERS. GET YOUR NEXT PARTY STARTED RIGHT WITH THESE EASY CHEESY BITES.

WORDS Lois White  PHOTOS Tobin Bennett
1. SOFT & MELTY FONTINA
Fontina cheese has a mild, buttery flavor with a smooth, almost silky texture. It has excellent melting properties on the grill. Place slices on rye cocktail bread spread with garlic paste or stone-ground mustard. Grill over medium-high heat for 4 to 5 minutes or until cheese is slightly melted. Top with fruit preserves and cracked black pepper.

2. SMOKY GOUDA
Hickory-smoked Gouda, with its edible brown rind and creamy yellow interior, adds an extra layer of smoky goodness to grilled pita chips and spicy, cured salami. Cut pita bread into wedges and generously brush both sides of each wedge with olive oil. Grill over medium-high heat for 1 to 2 minutes on each side. Cool on a wire rack until crisp. Grill slices of dried Italian salami for 1 to 2 minutes on each side. Top pita wedges with salami and Gouda slices. Serve with Castelvetrano or Kalamata olives.

3. CHEWY HALLOUMI
Halloumi is a goat's and sheep's milk cheese with a strong salty character. It hails from Cyprus. The magically hard cheese has a high melting point, so it won't turn into a gooey mess on the grill. Once grilled, its exterior turns crispy and golden brown while the inside softens without melting. The result is a pleasantly squeaky, chewy bite. Serve it with grilled vegetables or a plate of juicy tomatoes and fresh basil. Before barbecuing halloumi, drain off any brine and slice the slab in half horizontally. Grill each portion over medium-high heat for 10 minutes.

FOR A DINNER PARTY, SERVE FOUR TO SIX APPETIZERS PER PERSON. FOR A COCKTAIL PARTY, DOUBLE THE AMOUNT.
IN THE KITCHEN WITH DAD

DOING LAUNDRY, DRIVING KIDS TO SCHOOL AND SERVING AS THE FAMILY’S CHIEF COOK: THESE ARE JUST A FEW OF THE THINGS STAY-AT-HOME DADS JUGGLE EACH DAY AS THEY MAN THE HOME FRONT. TO HELP, WE’RE DISHING OUT ALL THE BEST TIPS AND TRICKS FOR BUSY DADS IN THE KITCHEN!

WORDS Danielle Herzog
PHOTOS Cameron Sadeghpour and Greg Scheidemann
ASK ANY PARENTS AND THEY’LL TELL YOU THAT THE MOST STRESSFUL PART OF THE DAY IS GETTING THEIR KIDS FED. It’s challenging to please everyone while serving healthy meals that keep the family budget intact.

Shannon Carpenter, father of three from Lee’s Summit, Missouri, realized how tough cooking really was when he became a stay-at-home dad. “The biggest challenge I face is coming up with new meals each week. Then there are the time constraints when cooking coupled with the fact that usually someone is grabbing your leg or trying to get your attention.”

He’s not the only dad.

In the last 10 years, the number of dads choosing to become the primary caregiver for their kids has more than doubled. With an estimated 1.75 million at-home dads, the family dynamic is changing as mothers increasingly become family breadwinners and fathers take their places at home.

For dads, this means good-bye to traditional jobs and careers. They must become adept at such skills as keeping toddlers corralled, cranking out three meals a day and keeping up with a never-ending pile of laundry.

In their new roles, many men are handling the challenges and finding satisfaction, according to a 2011 study by the Boston College Center for Work and Family.

“Many said they have become more patient, more relaxed and calmer” as at-home dads, the study says. “They were now more competent doing family chores. Some felt better able to focus and be more productive. All felt they had developed closer relationships with their children.”

But there are downsides too. At-home dads told researchers that the worst aspects of the job include long hours with no breaks, stress and frustration, unrecognized accomplishments, boredom and exhaustion.

Many men also find they are isolated as child caregivers. The work keeps them tied to home most days. When they take kids to a park, they are likely the only man there. Some feel they are dismissed by men with traditional careers. But as at-home ranks grow, so does acceptance.

The experts recommend dads join one of the many groups for at-home fathers that have formed in recent years.

One of the most active groups is the National At-Home Dad Network (www.atmousedown.org). With more than 3,000 members in the United States and Canada, the network offers dads a chance to be part of a community that’s there to help. Men gain friends who are facing the same challenges as they do.

The most difficult aspect of staying home may be housework. It can become a friction point between men and women. Writer Peter Baylies recommends men focus on the room their partners always inspect first. “Make sure that part of the house is always clean,” he says.

5. “A food processor is your friend. It’s the tool that can help you slip in vegetables without your child noticing. It’s a great way to make a meal more nutritious without their resistance.”

The recipe for the best-tasting Italian pizza sausage didn’t come to America on a boat from Italy. It was developed by a Chicago teenager for his family’s business, which now produces sausage toppings for Hy-Vee pizza. The flavor is slightly sweet with a subtle spiciness. One bite and you’ll be hooked.

WORDS: Steve Cooper  PHOTOS: Tobin Bennett
Take only a nibble, and the sausage on Hy-Vee pizza wakes up your taste buds with its light, spicy seasonings. Don’t worry; this won’t be a three-alarm fire. The pizza’s taste is enhanced by the exceptionally pleasing, mouthwatering meat.

The sausage is produced by Fontanini Italian Meats. It has made pizza sausage for decades from a blend of four cuts of select, lean pork with a natural sweetness and chewy texture. The company supplies the meat atop every Hy-Vee sausage pizza.

The product’s origins go back to the early 1950s, when opportunity knocked for Italian immigrant Oriano Fontanini of Chicago. A chance meeting with an old friend from Italy steered Oriano toward the sausage and pizza-topping business.

In the typical immigrant-makes-good story, Fontanini would have broken into the business with a treasured old-world recipe handed down through the family for generations. “But we weren’t after an old-world flavor,” says his son, Gene. “We wanted our sausage to have a new-world flavor. It wasn’t developed in Italy; it was developed here in Chicago.”

Early in the search for a formula, Gene—only 18 at the time—put a recipe on the table. He had worked at a pizzeria for a couple of years; he had ideas about making a noteworthy sausage. He doubted his father would care for it, but Gene’s recipe was worth a try. Oriano also put recipes forward. After testing, testing and more testing, it became obvious to all that Gene’s recipe was the one.

“I was just a teenager, but my recipe became Code A. It’s the mother of all our formulas. Every other sausage product we make is a derivative of Code A,” he says. This is the sausage now topping Hy-Vee pizzas.

Since 1993, Gene and his sister, JoAnne, have been running the company together. Their father started with a modest building and one truck. The company is now a national brand with a 220,000-square-foot plant in McCook, Illinois. In addition to pizza toppings, this business produces Mamma Ranne meatballs, a variety of sausage products and other meats.

“People come to us because of the flavor of our meat,” Gene says, “We don’t skimp; we don’t change our formulas. Our customers know they are getting the best.”

GRILLED STEAK SLIDERS WITH COLA BARBECUE SAUCE

Adding cola to the rich, savory ketchup-based marinade infuses flank steak with the right amount of sweetness and just enough acid to help tenderize the meat. Liquid smoke adds the same flavors you’d get from smoking the meat for hours.

Prep: 50 minutes | Marinate: 1 hour | Grill: 17 to 21 minutes | Makes 16
1 (2-pound) beef flank steak
1½ cups Hy-Vee ketchup
1½ cups Hy-Vee cola
½ cup finely chopped onion
½ cup Hy-Vee Worcestershire sauce
¼ cup Hy-Vee steak sauce
3 cloves garlic, minced
1 teaspoon liquid smoke
⅛ teaspoon Hy-Vee black pepper
Few dashes bottled hot pepper sauce, optional

2. In a medium bowl, combine ketchup, cola, onion, Worcestershire sauce, steak sauce, garlic, liquid smoke, black pepper and, if desired, hot pepper sauce. Pour 1 cup mixture over steak in bag; seal bag; gently shake to coat steak. Marinate in the refrigerator for 1 hour, turning bag occasionally.

3. Meanwhile, transfer remaining sauce to a medium saucepan. Bring to boiling; reduce heat. Simmer, uncovered, for 25 to 30 minutes or until thickened. Strain sauce; set aside.

4. Prepare a charcoal or gas grill for direct grilling over medium coals. Drain steak; discard marinade. Grill steak to desired doneness, turning once halfway through grilling. Allow 17 to 21 minutes for medium-rare (145°F) to medium (160°F).

Gorgonzola cheese, crumbled, to taste

1. For caramelized onion, in a large skillet add butter and 1 tablespoon olive oil; melt butter over medium heat. Add onion and cook for 25 to 30 minutes or until deep golden brown, stirring frequently. Stir in salt and pepper; set aside.

2. While onions are cooking, in a small saucepan, whisk together ketchup, Worcestershire sauce, lemon juice, vinegar, soy sauce, brown sugar and garlic powder. Bring to boiling; reduce heat. Simmer for 20 minutes or until reduced to 1 cup. Stir caramelized onion into sauce; set aside.

3. Rub steaks with pepper and garlic seasoning. Let stand for 10 minutes. Preheat a charcoal or gas grill for direct cooking at medium heat. Grill steaks to desired doneness, turning once. Allow 10 to 12 minutes for medium-rare (145°F) or 12 to 15 minutes for medium (160°F). Let steaks rest for 3 to 5 minutes so juices redistribute evenly throughout the steak.

4. In a large skillet, cook kale in batches in remaining 4 tablespoons oil over medium-high heat until wilted. Season to taste with salt and sprinkle with crushed red pepper.

5. Top steaks with caramelized onion sauce and Gorgonzola. Serve with kale.

ALL-AMERICAN CLASSIC HAMBURGERS

The most flavorful hamburgers start with great ground beef. Using meat with at least 15 percent fat will result in juicy grilled burgers. Shape the patties gently and make a small indentation in the center to ensure even cooking as the burger swells during grilling.

¼ teaspoon Hy-Vee black pepper
Several dashes hot pepper sauce

1. Heat a charcoal or gas grill for direct cooking over medium heat.
2. In a large bowl, combine ground beef, onion, garlic, Worcestershire sauce, salt, black pepper and hot pepper sauce; mix well. Shape ground beef mixture into four ¾-inch-thick patties.

**THE BEST IN BEEF**

Thick, tender and juicy, the most desirable steaks are sizzling and smoky as they come off the grill. Choose from Prime Reserve, Choice Reserve or Angus Reserve at your local Hy-Vee Meat Department.

**PRIME RESERVE.** This is among the best of the best. Only about 2 percent of beef is graded Prime by the United States Department of Agriculture (USDA). Resulting steaks are typically reserved for restaurants, but you can have one of these exceptional steaks at home tonight.

**CHOICE RESERVE.** When dining at a fine restaurant, you are usually served a superior USDA Choice steak. Professional chefs know the level of marbling in Choice Reserve beef indicates each bite will be tender and tasty. Hand-selected Choice Reserve from Hy-Vee is unsurpassed.

**ANGUS RESERVE.** This 100-percent natural, aged and hand-selected beef comes from grain-fed cattle. For deep flavor, choose cuts of Angus Reserve.

It’s time to get face-to-face with your Brussels sprouts. You don’t have to be a committed vegetarian to enjoy a meatless meal. Prep work is easier than you think and meals are light, bright and healthy. Choose fruits and vegetables that add texture, flavor and color.

From weight loss to lowered risks of cancer, there are abundant benefits of a plant-based menu. “Vegetarian-style eating patterns have been associated with improved health outcomes, including lower levels of obesity, a reduced risk of heart disease and lower blood pressure,” says dietitian Heather Ware of Hy-Vee in Ottumwa, Iowa.

The USDA’s Dietary Guidelines for Americans 2010 promote eating more fruits, vegetables and whole grains while limiting meat to small, lean cuts. Vegetarians consume a lower proportion of calories from fat and take in fewer overall calories. They also consume more fiber, potassium and vitamin C than the average nonvegetarian.

Get colorful fruits and vegetables in the Hy-Vee Produce Department and your favorite vegetarian standbys, such as peanut butter, pasta and canned or dried beans, in the grocery aisles.

Look to the HealthMarket for vegetable potpies, broccoli-kale lasagna, roasted vegetable enchiladas and other frozen entrées. “Our HealthMarket is full of meat substitute products, such as Boca and MorningStar veggie burgers,” Heather says. Other vegetarian choices include tofu products, wholesome grains and dairy-free substitutes for standard cow’s milk.

EAT THE RAINBOW

Eat your colors. Serve a rainbow and you’re serving a cross-section of nutrients. For a healthier diet, load your plate so foods look like a painter’s palette. Here’s a guide to food color and nutrition:

Red: Deep red fruits and vegetables—such as cranberries, cherries, strawberries, tomatoes, beets, red cabbage and red bell peppers—contain antioxidants that may help memory function and fight against heart disease and some cancers.

Green: Rich in phytochemicals, calcium and Vitamin D, green fruits and vegetables help lower the risk of some cancers, while promoting healthy bones and teeth and good vision. Reach for Brussels sprouts, green bell peppers, broccoli, celery, green beans, honeydew melon, kiwifruit, and dark leafy greens, such as kale, Swiss chard, spinach, and turnip greens, collard and mustard greens.

Yellow and Orange: Good sources of carotenoids and vitamin C, these bright and sunny fruits and vegetables are good for your heart, immune system and vision, and may also lower the risk of some cancers. Sweet potatoes, carrots, butternut squash, cantaloupe, apricots, oranges, grapefruit, and tangerines are tasty tickets to these health benefits.

Blue and Purple: Thanks to their antioxidants, blue and purple fruits and vegetables, such as blueberries, blackberries, plums, eggplant and purple potatoes, can support healthy aging, memory function and urinary tract health.

White: Garlic, onions, cauliflower, mushrooms and turnips contain nutrients that can help you maintain healthy cholesterol levels.

MEAL PLANNING

The colorful recipes on the pages ahead will put the nutrients your body needs in the meals you serve, whether you are strictly vegetarian or simply want more fruits and vegetables. Layer vegan pizza dough with purple onions and red cherry tomatoes, or build a better burger of black beans and green bell pepper. Even chocolate cake gets a veggie upgrade.
These moist veggie burgers are packed with robust bean flavor and bold Southwestern seasonings. The evenly crisped brown crust that forms while cooking makes these extra tasty. Be sure to use medium heat to prevent the burgers from charring on the outside.

Prep: 20 minutes | Cook: 5 minutes | Serves 6

2 (15-ounce) cans black beans, rinsed and drained
½ cup Hy-Vee panko bread crumbs
1 large Hy-Vee egg
3 tablespoons garlic hummus
2 teaspoons Hy-Vee ground cumin
2 teaspoons Hy-Vee dried oregano
½ teaspoon cayenne pepper
½ cup fresh or frozen corn
½ cup chopped green bell pepper
½ cup chopped red onion
½ cup chopped baby bella mushrooms
¼ cup chopped fresh cilantro
3 tablespoons Hy-Vee canola oil
6 Hy-Vee Bakery soft hamburger buns, toasted
Desired condiments/toppers (hummus, cheese slices, onion slices, avocado slices, tomato slices, lettuce leaves, jalapeño pepper slices*)

1. Using a potato masher, mash beans in a large bowl. Add panko, egg, garlic hummus, cumin, oregano and cayenne; combine well. Stir in corn, green bell pepper, chopped onion, mushrooms and cilantro. Form mixture into six patties.
2. In a large skillet, heat oil over medium heat. Cook burgers for 5 minutes or until outsides are crisp and lightly browned, turning once halfway through cooking. Serve on toasted buns with condiments and/or toppings.

*Note: Chile peppers contain volatile oils that can burn your skin and eyes. When working with chiles, wear protective gloves.

Prep: 45 minutes | Serves 4 (3 each)

¼ cup hoisin sauce
2 tablespoons Hy-Vee peanut butter
1 tablespoon chili garlic sauce or puree
1 teaspoon sesame oil
2 to 3 teaspoons water

2. For veggie rolls, cut mangoes, bell pepper and carrots into thin matchsticks; set aside.

TURN A MODEST LUNCH INTO A FIVE-STAR MEAL BY LAYERING DI LUSSO PREMIUM MEATS BETWEEN SLICES OF FRESHLY BAKED ARTISAN BREAD.
When the doors of Di Lusso Deli Company opened in 1919, customers had only two meat choices: Italian-inspired Genoa Salami and German-heritage Hard Salami. Both became New York City bodega classics. Through the years, the company’s line expanded to include crafted beef, ham, turkey and chicken deli meats. As with the original meats, these are minimally processed so each carefully selected cut retains its authentic flavors. No fillers or MSG are used. This devotion to quality makes these products a cut above the rest.

Di Lusso also offers cheese made to the same high standards as their meats. From buttery Smoked Gouda to fiery Habanero Jack, all of the company’s top-quality cheeses are handmade and aged to perfection in Wisconsin. Many of these cheeses carry the Master’s Mark seal, assuring you that each was made by a master cheesemaker. These highly qualified artisans have at least 10 years of experience in cheesemaking. Their skillfully crafted cheeses coupled with Di Lusso premium meats create foods you will be pleased to serve.

Think outside the loaf. Don’t settle for a typical sandwich, explore the possibilities with new recipes and ideas. Combine thinly sliced premium meats and cheeses for a variety of delicious appetizers such as Pepperoni Pizza or spicy Jalapeño Salami crostini. To pack loads of flavor into these tiny bites, spread them with Di Lusso specialty condiments. For a new spin on an old classic, use thick slices of country-style ham in a skewered Chicken Cordon Bleu. Visit your local Hy-Vee Deli to have your purchase sliced to order.

(rosemary, sage, oregano and/or thyme)
¾ teaspoon Hy-Vee kosher sea salt
½ teaspoon Hy-Vee black pepper
4 (¼-inch-thick) slices Di Lusso country-style ham
(per 10 ounces total)
3 (6-ounce each) boneless, skinless chicken breasts
4 tablespoons Hy-Vee butter, divided
2 tablespoons Di Lusso deli-style mustard
1 cup heavy whipping cream
4 ounces Di Lusso smoked Gouda cheese,* shredded
1 pound fresh green beans, trimmed and steamed

1. Preheat oven to 350°F. Spray a large baking pan with nonstick spray; set aside.
2. In a shallow bowl, place ½ cup flour. In another shallow bowl, stir together eggs and 2 tablespoons milk. In a third shallow bowl, combine panko crumbs, herbs, salt and pepper. Set all three bowls aside.
3. Cut each ham slice into quarters; set aside. Cut each chicken breast into 1½-inch chunks. Working in batches, coat chicken with flour. Dip in egg mixture; lastly coat with crumb mixture. Alternately thread crumb-coated chicken and ham pieces onto eight 6-inch-long skewers. Arrange skewers on prepared pan. Melt 1 tablespoon butter; combine with mustard. Brush mixture onto skewered ham. Bake for 30 minutes or until chicken reaches 165°F.
4. For smoked Gouda sauce, in a medium saucepan, melt 3 tablespoons butter over medium to medium-high heat. Whisk in 3 tablespoons flour until combined. Whisk in 1 cup milk and cream. Cook and stir until thickened and bubbly. Whisk in cheese until smooth. Serve sauce with skewers and steamed green beans.

*Note: Ask the Hy-Vee Deli staff to cut about a 1-inch slice of cheese so it can be easily shredded at home.

Since Hy-Vee first opened its doors in the 1930s, it’s been more than a place to get groceries. In the communities where it has stores, the company is a good neighbor, helping where it can to make life better for all. There’s a long tradition of Hy-Vee employees reaching out to support people. Whether it’s helping military veterans, school children, the homeless, senior citizens or those needing quality products, information or advice, Hy-Vee is there to offer assistance.

VETERAN AIRLIFT
The World War II Memorial opened in 2004 to honor those who fought in one of the nation’s darkest hours. But when Hy-Vee learned military vets of the Greatest Generation couldn’t get to Washington, D.C., to see the memorial, the store helped out. Honor Flight is an organization that flies vets for free to see the memorial. The Hy-Vee Homefront initiative contributes to Honor Flight in this mission. For more about Hy-Vee Homefront, see “On the Homefront,” opposite.

A SHOW OF FLOWERS
Hy-Vee floral designers created a scene from the Netherlands as part of the 30th annual Cathedral Flower Festival in Omaha. It was the largest display in the history of the event. To get the job done, it took designers from 14 Hy-Vee stores in the area. The display, a little Dutch girl standing in a field filled with colorful tulips, was seen by as many as 10,000 people. The annual festival is staged by a nonprofit organization dedicated to enriching lives through the arts.

HY-VEE DIETITIANS TEACH KIDS ABOUT NUTRITION IN COOKING CLASSES.

OPERATION HELPFUL SMILE
More than $2 million has been raised over the last 11 years for Operation Helpful Smile, a project of the Hy-Vee stores in Sioux Falls, South Dakota. The funds assist local nonprofit organizations and charities. Through the years, these funds have made a significant difference in local schools, the Sioux Falls Area Humane Society, the Good Samaritan Society, Make-a-Wish South Dakota, St. Francis House and other groups that help children, senior citizens, the homeless and others in need.
RAISING COLD CASH

Thirteen employees at the Hy-Vee in Austin, Minnesota, took a polar bear dip last January to raise money to fight breast cancer. These hardy 13 swimmers jumped into an ice-rimmed lake to support Paint the Town Pink, a month-long fundraiser for the Hormel Institute’s research center in Austin. The Austin Hy-Vee has contributed more than $15,000 to Paint the Town Pink since 2011.

SINCE 1998, HY-VEE HAS RAISED CLOSE TO $10 MILLION FOR THE JUVENILE DIABETES RESEARCH FOUNDATION.

STRAIGHT-TALKING FARMERS

Soybean farmers in South Dakota wanted to initiate conversations with consumers about food safety and nutrition, so they worked with Hy-Vee to get word out about the Hungry for Truth initiative. Farmers put everything on the table in sharing their stories about raising healthy food with care and pride. They describe farm life and such hot topics as genetically-modified organisms (GMOs) in food.

Hy-Vee supports farms in your area by offering the best locally grown produce. Look for the Hy-Vee Homegrown label.

PINKY SWEAR

Hy-Vee is supporting children with cancer as a co-sponsor of Hy-Vee Pinky Swear Kids Triathlons and 5K Family Runs in five Midwest cities this summer.

The events are a fundraising project of the Pinky Swear Foundation—founded by a Minnesota father after losing his nine-year-old son to cancer. Kids triathlons will be staged in Des Moines, Minneapolis, Omaha, the Quad Cities and Kansas City. Family runs will be held in all those cities, except Minneapolis. For event dates and more information, go to www.pinkyswear.org.

Learn more about the touching Pinky Swear story in the upcoming Back to School issue of Hy-Vee Seasons.

ON THE HOMEFRONT

Through Hy-Vee Homefront, more than $387,000 has been raised to assist military veterans and current service members. Among the programs supported by the Homefront project are:

- Hope for Warriors. Gives assistance to post-9/11 service members with physical and psychological wounds.
- Operation First Response. Offers personal and financial help to wounded heroes and disabled vets.
- Puppy Jake Foundation. Provides highly trained service dogs for vets who need them.
- Veterans Day Breakfast. Free breakfasts are served to vets at more than 200 Hy-Vee stores. About 80,000 vets are served each year.
- Jobs at Home. Those who have served in the military are actively recruited for jobs at Hy-Vee. The company works through Home Base Iowa to fill jobs with veterans.

TURKEY DINNERS

More than 100,000 people enjoyed turkey dinners through the Hy-Vee 10-day, 10-city and 10,000-turkey initiative. The hunger-fighting campaign provided healthy, high-quality Thanksgiving meals through Midwestern communities, food banks and shelters.

Hy-Vee’s donation of 10,000 turkeys equates to 50 tons or 100,000 pounds of turkey. Turkeys were delivered to cities in Nebraska, Iowa, Kansas, Minnesota, South Dakota and Wisconsin.

WHEN RAGBRAI BIKE RIDERS WILT FROM A DAY IN THE SUN, HY-VEE IS THERE WITH ICE.
RAGBRAI: HY-VEE HOSPITALITY WELCOMES RIDERS

Officially, it’s called the Register’s Annual Great Bicycle Ride Across Iowa, or RAGBRAI. About 8,500 cyclists take the challenge to bike from the Missouri River to the Mississippi River each year, and Hy-Vee is always nearby with food and other necessities.

Planning for the arrival requires months of preparation by Hy-Vee store directors and their teams in communities where the ride stops overnight. Starting in February and March, store leaders attend strategy sessions with city officials. In some towns, Hy-Vee is the only business capable of providing basic necessities, such as food, for thousands of riders. Of course, Hy-Vee stores are always ready with everyday needs, such as cold drinks, energy bars, peanut butter, bananas, first-aid supplies, medications and more. Many stores also offer breakfast buffets, carb-loaded pasta meals and grilled foods.

It makes sense to Mike Kueny that there’s collaboration between Hy-Vee, one of Iowa’s largest employers, and RAGBRAI, one of the biggest events in the state. Mike should know. He’s director of Hy-Vee Des Moines store #2, and he’s ridden RAGBRAI six times. “A core value at Hy-Vee is...”

1. SIOUX CITY
This is the tenth time that RAGBRAI starts in Sioux City. Participants who discover they didn’t pack sunblock or some other essential can stock up at one of the nearby Hy-Vee stores.

2. STORM LAKE
Overnighters will camp beside the city’s 3,200-acre namesake lake. Bikers can visit the Hy-Vee tent for cold drinks, bug repellent and more, says store director Shawn Brown.

3. FORT DODGE
Halfway to Fort Dodge, riders can take a 15-mile detour on a gravel road. Store director Tim Flaherty says that once thirsty athletes hit town, Hy-Vee will have plenty of cold drinks on hand.

4. ELDORA
Five of the eight towns along the day’s route have never been on a RAGBRAI route. Hy-Vee store director Steve Deutmeyer promises there will be enough pasta, burgers and turkey legs for hungry riders.

HOW HY-VEE HELPS RAGBRAI RIDERS: Water / Ice / Sunscreen / Lip balm / Energy bars / Pain reliever / Bandages / First-aid cream / Sunglasses / Insect repellent / Soap and shampoo / Toothbrush and toothpaste / Disposable cleaning wipes / Medications / First-aid supplies / Flashlight / Batteries / Breakfast / Lunch / Dinner
health and wellness, so RAGBRAI fits in with what we do," he says.

When RAGBRAI stops each night, some will want cold drinks and a burger or a brat, while others may be anxious to find bug repellent. They all ask, “Where’s a Hy-Vee?” Fortunately, they won’t be far from a local Hy-Vee store.

Helen Eddy, assistant vice president of pharmacy services and a rider herself, says, “Hy-Vee plays a crucial role for host communities. Just getting ice where it’s needed takes a lot of hard work.”

Since 1973, when about 300 people joined the first RAGBRAI, everyone who saddles up for the world’s greatest bicycle trek has had one goal for the journey: Have an outrageously good time. They do, and Hy-Vee helps.

**5. CEDAR FALLS**

Store director Jeff Sesker says that the Hy-Vee crew will greet riders with a truckload of ice as tents rise at the University of Northern Iowa. When morning comes, the Hy-Vee Kitchen will have a breakfast buffet ready for bikers.

**6. HIAWATHA**

Bicyclists travel 69.6 miles to get to Hiawatha and climb 2,669 feet in the process. Ice, food and beverages will be delivered to campers by at least one of the Hy-Vees in nearby Cedar Rapids.

**7. CORALVILLE**

The route for the day includes some of the state’s most beautiful country. Hy-Vee will offer burgers and brats from a grill at S.T. Morrison Park, where riders will camp, says store director Tom Hamilton.

**8. DAVENPORT**

Arrival at Davenport ends RAGBRAI with the traditional dipping of front tires into the Mississippi River. Hy-Vee store director Todd Robertson says his crew is ready to feed the hungry victors during their riverside celebration.

FOR RAGBRAI, HY-VEE STORES ARE STOCKING UP ON BOTTLED WATER, SUNBLOCK, BANANAS, ENERGY BARS AND MORE.
ON CALL

NO MATTER THE TIME OF DAY, WHEN CUSTOMERS HAVE QUESTIONS OR PROBLEMS, THE HY-VEE CALL CENTER IS STANDING BY WITH ANSWERS.

WORDS Courtenay Wolf  PHOTOS Cameron Sadeghpour
When you’re stationed in Kuwait and your wife is home in Iowa, making sure she gets flowers on her birthday is a very big deal.

Though everything worked out in the end, one soldier doing his duty in the Middle East was frustrated after running into trouble with Hy-Vee’s online ordering system. He wanted to send flowers to his wife, but the system kept turning down his credit card. Finally, he went on Live Chat at Hy-Vee.com and typed, “Hey, I’m over here serving my country and I can’t order flowers for my wife!”

“It was a problem with his credit card code,” says Larry Ballard, Hy-Vee communications manager. “So I got his information, called the store and put the order through. They delivered the flowers to his wife while he was on Skype talking to her, and, of course, he was the happiest guy in the world.”

Larry is in charge of Hy-Vee’s Customer Care Center, which is staffed seven days a week, 24 hours a day. It takes a staff of 15 to take phone calls, answer emails and engage with customers in Live Chats. Employees also communicate with customers through Facebook, Twitter and other social media.

Over the years it’s grown from a quiet back room office to a high profile glassed-in command center at corporate offices in West Des Moines, Iowa.

“Our job is solving problems for customers and the stores in real time. We try to answer every Live Chat immediately and every email within 20 minutes. If we’re not doing that, I think we’re going too slow,” Larry says.

Customers come to the Care Center with questions that run the gamut, from what to do about a lost Fuel Saver card to the price of crab legs at their local store. Contacts about Fuel Saver are the biggest category.

Most people are looking for fast, accurate information and solutions. This requires a combination of knowledgeable people, teamwork and technology.

“We have a huge database that helps us answer questions,” Larry says. “For instance, when a customer gets an error code while trying to do something on the website, we know exactly what it means and what to do next.”

When Larry and his team aren’t able to solve a problem or concern, they can put a customer in touch with someone who can. Often, that means linking the customer with the right person at their local store. “It’s a total team effort,” says Larry.

The Care Center staff assumes each person has a life-or-death situation. For some customers it really has felt that way.

“On Valentine’s Day,” says Larry, “Hy-Vee sold boxes with two New York strip steaks, twice-baked potatoes, bacon-wrapped asparagus and gourmet cupcakes—everything you’d need for a romantic dinner for two. A young woman called in a panic. She didn’t realize the food wouldn’t come prepared and she had no idea where to start. We talked her off of the ledge, and she cooked a great dinner for her husband.”

The team took care of more than 100 issues like this on Valentine’s Day alone. This wouldn’t have been possible before Live Chat, which is faster than standard emailing. During a Live Chat, a caller and a Call Center staffer simultaneously view notes as they are written.

Working in the Customer Care Center is fast-paced, and Larry says, “It can get crazy in here. I can always tell when there’s a big storm in one of our locations. Suddenly we’re swamped with questions and concerns.”

Store directors get copies of every communication relating to their stores. Whether it’s a request for information, a cry for help, a compliment or a complaint, Larry passes it on. Also, every Monday morning, Hy-Vee’s management team reviews customer problems from the previous week. In this way, they can spot problems popping up at multiple locations and take corrective action.

BABY BACK RIBS WITH DR PEPPER BBQ SAUCE

Kick off your next cookout with a zesty homemade sauce for ribs or drumsticks. It also makes tasty sauce for a pizza, topped with shredded chicken and fontina.

Prep: 15 minutes | Rest: 30 minutes | Grill: 2½ to 3 hours | Serves 8
3 (2½-pound) sections baby back pork ribs

RUB
1½ tablespoons Hy-Vee kosher sea salt
1 tablespoon Hy-Vee dried minced garlic
1 tablespoon Hy-Vee ground oregano
1 teaspoon Hy-Vee black pepper

SAUCE
1 cup finely chopped onion
2 tablespoons Hy-Vee Select olive oil
1 (12-ounce) can Dr Pepper (not diet)
1 cup Hy-Vee ketchup
½ cup packed Hy-Vee brown sugar

1 cup Hy-Vee Worcestershire sauce
3 tablespoons Hy-Vee tomato paste
2 tablespoons Hy-Vee honey
1 teaspoon grated fresh ginger
1 teaspoon Hy-Vee kosher sea salt
¼ teaspoon cayenne pepper

1. Prepare a charcoal or gas grill for indirect cooking over low heat (300°F).
2. Remove membrane from ribs, if desired.
3. Combine rub ingredients; season ribs all over with rub mixture. Let ribs stand at room temperature for 30 minutes before grilling.
4. Place rib racks, bone sides down, on grill rack. Grill for 2 hours. For sauce, in a saucepan cook onion in hot oil for 10 minutes. Add remaining sauce ingredients. Bring to boiling; reduce heat. Simmer, uncovered, 30 minutes or until sauce thickens. Remove from heat; cool slightly. Transfer in batches to a blender and blend until smooth. Set aside.
5. Tear off 3 sheets of heavy-duty aluminum foil, each about 2½ times the length of a rack of ribs. After 2 hours of grilling, transfer each rack to a foil sheet. Brush each rack on both sides with prepared sauce and wrap tightly in foil.
6. Return racks to grill. Grill 30 to 60 minutes more or until ribs are done, when meat has shrunk back from the bones by ¼ inch or more. Serve with remaining sauce.

Chunky Baked Beans

Prep: 20 minutes | Bake: 1 hour

Serves 8

½ pound Hy-Vee thick-cut bacon
1 yellow onion, chopped
½ cup chopped green bell pepper
2 cloves garlic, minced
1 (20.5-ounce) can Campbell’s Chunky Baked Beans
1 cup Pace Picante Thick & Chunky medium salsa
¼ cup Hy-Vee barbecue sauce
¼ cup packed Hy-Vee brown sugar
1 tablespoon Hy-Vee spicy brown mustard
1 tablespoon Hy-Vee cider vinegar

1. Preheat oven to 350°F.
2. In skillet, cook bacon until crisp. Remove bacon from skillet; reserve 2 tablespoons drippings in skillet. Add onion, pepper and garlic to skillet. Cook for 5 minutes. Stir in remaining ingredients.
3. Transfer bean mixture to a 1-quart casserole. Cut bacon into chunks; arrange on top of beans. Bake, uncovered, for 1 hour or until bubbly and sauce is thickened.
Hy-Vee Chef Lou Constantino recommends these appetizers, which grill quickly and disappear from the platter just as fast.

1. STUFFED MUSHROOMS. Remove the stems from white or brown button mushrooms, and stuff mushrooms with imitation crab. Grill until cooked through. Finish with a dab of Alfredo sauce before serving.

2. WRAPPED ASPARAGUS. Grill asparagus in advance, then wrap in phyllo dough and grill. Serve immediately.

3. SAUCY MEATBALLS. Grill homemade or purchased meatballs; drop into marinara sauce. Top with grated Parmesan or Romano cheese and serve with toothpicks.

4. SHRIMP. Grill raw shrimp (reheating precooked shrimp on a grill toughens them). As you grill, brush shrimp with butter and garlic.

5. KABOBS. Skewer chunks of veggies, fruits and/or meats. Any tasty combo of foods that cook at the same rate and at the same temperature will tempt guests and are easy to eat straight off the skewer. (Soak wooden skewers before grilling to inhibit burning.)

6. GRILLED SALAD. Brush olive oil on romaine, mushrooms, tomatoes and other vegetables of choice; grill until tender. Chop, place in a salad bowl and drizzle with a light vinaigrette dressing.

7. APRICOTS AND CHEESE. Warm a Brie wheel on a grill to soften; remove. Pour mixture of dried apricots and apricot marmalade over Brie. Invite guests to dip into the cheese with flatbread crisps, water crackers or pita chips.

8. PIZZA. Grill both sides of a crust, then add a thin layer of precooked toppings and cheese. Return to the grill to melt cheese.

9. BRUSCHETTA. Grill veggies (such as tomatoes, sweet peppers, and/or onions) in advance; chop and season for the topping. Brush bread with olive oil and grill until toasty. Top with vegetable mixture.

10. GRILLED AVOCADOS. Halve avocados and remove pit; brush flesh with a mixture of oil and lime juice. Grill 5 minutes, cut-sides down. Flip over, fill with Jack cheese and salsa. Grill 5 minutes more or until cheese begins to melt. Top with fresh chopped cilantro.

Pizza Tonight!  
JUST FIRE UP THE GRILL

Made with 100% real Wisconsin cheese, savory marinara and a crispy, thin crust, JACK’S® Pizza is a tasty and easy choice for grilled summer meals. And the Official Pizza of the Grill is always an unbelievably low price at Hy-Vee.

PREHEAT GAS GRILL TO 400°F
• Keep the lid closed.

PLACE FROZEN PIZZA ON THE GAS GRILL
• Unwrap packaging, remove cardboard and don’t let pizza thaw.  
• Close the lid to ensure the temp stays at 400°F.

GRILL 15–20 MINUTES
Note: Grill times vary between JACK’S® Pizza varieties, so check the package’s back label for specific instructions.  
• Rotate it 180° after 7 minutes so it cooks evenly.

CHECK FOR DONENESS
• Take the pizza’s temperature (it needs to be 160°F).  
• See that the cheese is melty and crust is dark (the open flames make the crust darker than an oven-baked pizza).

REMOVE FROM GAS GRILL
CAUTION: HOT! Don’t touch it yet (use a spatula instead).  
• Let it cool for 5 minutes and it’ll be even tastier.
GRILL TIP: Add a hint of smoky allure to refreshing lemonade with slices of grilled lemon.
